

The Goal:

To have Student Services fully participating in the student record. To get this started, we have made improvements to the Special Ed Screen and Special Ed Category reporting hoping that starting September, Student Services will utilize CIMS exclusively for reporting on their funded students. Specifically:

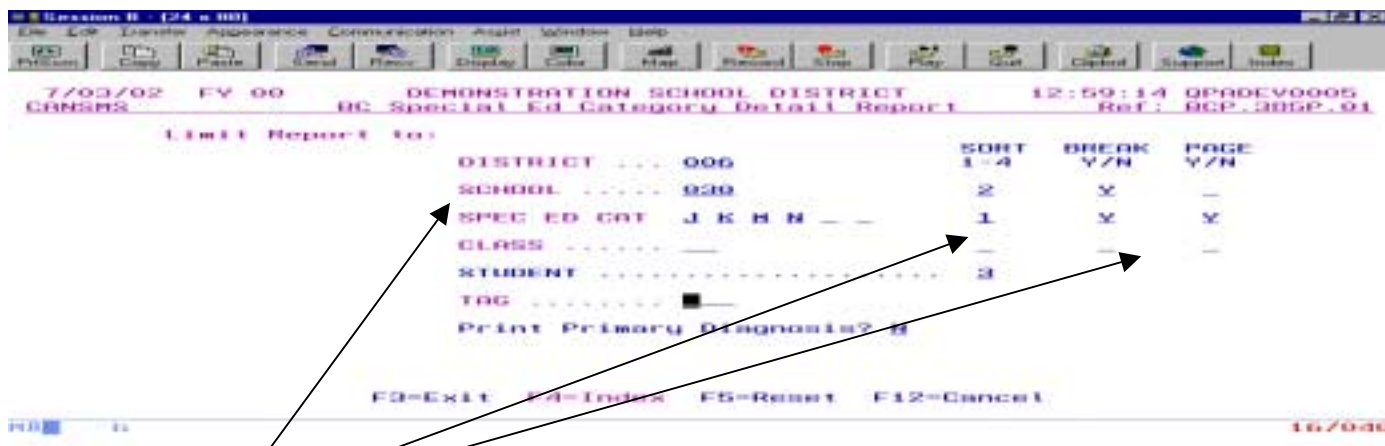

- 1) Adjustments have been made for Student Services to be able to input additional Special Ed category information on students. From within Student Access, use F12 to access the Special Ed screen.

These fields are available in the report BCP.385.

- 2) Schools can now be locked out from changing the Special Ed Category of the 1701 screen. If a user is limited to a school, then they can see and report on the Special Ed information but cannot change it.
- 3) The schools have always been able to report on their Special Ed students in ANY fashion by utilizing student report writer. Two new reports have been added for Student Services to report on Special Ed students in detail or summary in a variety of ways.

New Report, BCP.385 for student services to select, count, see what codes exist.

Options for selecting, sorting, and page Breaking. Each time a break is selected, sub-totals will appear.

Session B - [27 x 132]
