

Oct 30 - Web Enhancements SchoolBooks Connect (July 1, 2009 – October 30th)

Schoolbooks enhancements are at the cosmetic stage. The product is complete and provides all of the options that are required.

Features Enhanced - SchoolBooks

- On account select window – expanded the amount of description that appears to help user to see what the account is by description
- On cheque lines <add> once the Information is <Saved> account and title information now appear on the line to assist in knowing you selected the right account
- Journal entry shows in/not in balance at <Save> so the user can more easily tell what needs to be corrected.
- On receipt lines <add> once the Information is <Saved> account and title information now appear on the line to assist in knowing you selected the right account
- On journal entry lines <add> once the Information is <Saved> account and title information now appear on the line to assist in knowing you selected the right account

Errors Corrected:

- Some signon issues if userid was set to limit capabilities *YES ... corrected
- Cash receipt positioning was off if you are a customer using cims for a decade or more .. corrected to position to recent receipts.
- GNL.570 reporting was not listening to month end close date ... corrected. If you want to run a report as at a certain monthend – indicate that date in the date selections.
